Comments: Pelican Island Field Trip List 2 of 3, to Three Lakes and Joe Overstreet led by Carolyn Cimino Includes road in and through the gate and area all around Joe Overstreet's Landing. Sunnier here, new ramp explored, difficult spotting of the 2 Wilson Snipe, feeding to the right of the Landing in the grassy wet areas North within 100-200 feet. Drama of the Bald Eagles chasing in tandem. Many others busily feeding. Redwing Blackbirds hiding/nesting? in greenery along edge in front of Landing. Many Grackles, and palm warbler in dense Oak trees near picnic table and parking 77 F 50-70% cloudy...12 mph wind.

Comments: On Drive back, but birding was our primary purpose! On a post, Flying very near, landing beside road looking for a road kill evidently, posed for us briefly and when I got out of car to take a photo, it flew away. #3 of 3 postings for PIAS field trip led by Carolyn Cimino. Mike Callahan, Kit Lindsey, and Juanita Baker
