Letter: Voters, remember to vote out Solari, Davis, O'Bryan next election

I am outraged at the Indian River County Board of Commissioners, specifically commissioners Bob Solari, Peter O'Bryan and Wesley Davis.

I and many other voters gave hours of our personal time last year to attend rallies, meetings, testify and communicate with the press in order to make it perfectly clear to the commissioners that we opposed the Oslo Boat Ramp expansion project.

We listened to the scientists we trust, people who are extremely credible, well-educated and impartial because they do not stand to financially profit in any way from the project moving forward, or not moving forward.

We heard the informative testimony of drs. Baker, Souto, Widder, Cox, Gilmore and others who say the project will harm sea grass, manatees and fisheries.

We were comforted by a vote of 3-2 by the commissioners that the project was tabled in October and were led to believe it was dead for three to five years.

So you can understand my outrage March 10 when the commission voted to pursue the Army Corps of Engineers permit and that county was not withdrawing the project.

It sickens me that one person who behaves obnoxiously at the commission meetings is considered more important than hundreds of IRC voters. The arrogance and disregard for the residents is unbelievable.

Solari, Davis and O'Bryan should reverse their votes and stop all work on the project, including pursuing permits. In fact, since we do not trust them regarding this issue they should vote to kill the project. If they do not, we as a community should work to ensure they are never elected for any position in Indian River County again.

They have proven they don't have the lagoon or the voters' best interests at heart, so they do not deserve to represent us in office.
