Welcome and congratulations to the students
 and families chosen for the Fall 2017
 Audubon Advocate program!

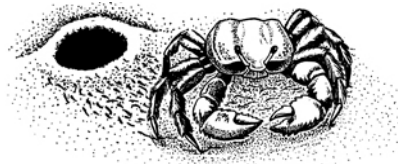

September Highlights

Last month we practiced field sketching and nature photography (See examples at left). Students learned about Ospreys and other animals that call the Indian River Lagoon their home. They also learned about stormwater runoff and what they can do as Advocates to protect our Lagoon.

October Highlights

Students will be getting wet this month. Please bring an extra set of clothing and a towel. Bring an extra set of lace up shoes they can get wet. Kayaking is a important skill and a fun activity we would like all the children to participate. Students do not need to know how to swim for the kayaking activity. Mark your calendar for the special family day at Audubon House on October 28th. More info below. Hope to see you there!
Happy Halloween!
